## Personal Profile.

I've had a passion for technology, the internet and design since the early years of my secondary education. Over the past few years I've developed my skills by educating myself as well as learning through work.

My main objective while working is to create beautiful web-designs of a high quality and ensure any mark-up such as XHTML or CSS is written to modern web standards and validates against WC3 (World Wide Web Consortium) standards.

## Work Experience.

The Sir Bernard Lovell School (July '06 - Present)

Web-Authoring Technician

Responsible for designing and maintaining several schools websites as well as creating e-learning and video resources for use in the classroom.

S-Cool (March - April '03)

Web-Designer (Work experience placement)

Designed and built webpages for the 'get the latest' area of the S-Cool website.

Spar Stores (May '05 - July '06)

Store Assistant

Day to day duties included serving customers, problem solving, customer service / support and training staff on EPOS and DVD hire systems.

## Examples of Work.

DaleAnthony - My own personal blog and portfolio ([www.daleanthony.com](http://www.daleanthony.com))

From Da Bricks - Hip-hop blog designed for Daniel Love ([www.fromdabricks.com](http://www.fromdabricks.com))
